Experience

Frontend software developer in Mesalvo

2022 - 2023

Mesalvo is a digital medical solution to international customers centralized in Germany.

Working in a scrum team, I developed multiple functions in various cloud and web based project, such as:

- React based Admin panels to manage other apps.
- Complex UX design, development and testing.
- Our own UI Library components and state management.
- Custom design templates, prototyping and theme creation using front-end technologies.

Graphic Designer in NUWE

2021 - 2023

NUWE is a digital ecosystem that offers tools to validate talent through challenges.

Working within the communication department, I have developed multiple creative solutions as:

- Regular digital creativities for the brands' social networks as Linked-In or Instagram.
- Complex designs for events, posters, roll-ups...
- I have created inside branding as logos or standard guidelines for Marketing and communication uses.

FullStack developer in UAB Mèdia.

2021 - 2022

UAB Mèdia's website is a PHP and WebTV service to visit the television & radio records from our faculty.

Frontend engineer in Unbrushed

2020 - 2021

Creation of a PHP online Portfolio. The entire website is modified with an API that uses a mySQL database.

Major previous volunteer works

2020 Satorras College's Agenda Design & Internal Posters.

2019 Graphic Designer in VIDA Festival with LCI Barcelona.

2018 Designer in Banc de sang i d'aliments de Catalunya.
